

Drive slowly on Ala Wai Blvd. When you just passed the intersection of Ala Wai Blvd and McCully St, you can see the parking garage's gate behind the street name pole.

After passing this intersection, turn sharp left to the 1st drive way. If you see the blue sign "ENTRY", this is the right turn.

After driving to the drive way, you can see the parking gate on the right side. Use the black round key fob to tap on the back pole, the parking gate will lift up.

Tap the black key fob on this black pole to lift the garage gate.

Our parking stall is #208 on the left side next to the ramp – just after you drive through the gate.
